Hint Cleaner

- Starts with an Ark-Pid Pair
- Accesses the FamilySearch API to scrape information about record and FS Individuals
- Parses scraped data to determine status
- Checks for common errors to determine difficulty

Impact

- Allows groups to add large numbers of individuals in a short amount of time
- When combined with Customized Hints you can quickly add people by last name or geographic location
- Ensures that family history work is age/experience appropriate.

The image shows two screenshots of the FamilySearch Family Tree application. The left screenshot displays a comparison between two profiles: 'Alfred Batley (Head)' and 'Susan Alice Rogers (Wife)'. A red arrow points from the 'Compare' button between these profiles to the right screenshot, which shows a detailed view of 'Olive Alice Batley'. The right screenshot includes a timeline, sources, and ordinance requests for the individual.
